MEMORANDUM FOR: Director of Research and Reports

SUBJECT: NIS General Survey Production

1. Following up on my memorandum and our conversation of several weeks ago regarding the problem of delayed contributions to the NIS, I thought you would be interested in the attached Progress Report on General Survey Processing.

2. You will note some delay in the ORR contributions. However, I am advised that your recent direction to the producing units has had a very salutary effect, for which I am grateful. I am confident that similar improvements can be made in OCI and that CIA will not continue to be the cause of the production backlog.

3. You may want to pursue the matter further in ORR to assure continued improvement.
